

Bed Collection

NATUZZI
ITALIA

WE ARE MAKING A DREAM COME TRUE

We have always had the desire to dream. But, more importantly, we have the ability. Which is why we have designed a collection that will extend Natuzzi's exclusive comfort, its valuable craftsmanship, its rich materials and its attention to detail to the world of bedroom furniture and cabinet.

A collection of beds expressing a fusion of real and imagined habitats, a link between reality and the dream of bringing beauty into people's lives. Transforming an idea into a tangible, accessible collection. A collection of dreams that live in reality.

DREAMS THAT LIVE IN REALITY

The Natuzzi Dream Collection is made up of 6 beds and offers the same vast choice of leather and fabric coverings as the Sofa Collection.

The range of functions is also extensive: two beds are available with space-saving storage bases with precision movements; one model also has an adjustable headboard. Designed in collaboration with major names from the world of design, the collection is 100% Made in Italy.

PIUMA BED

Designed by Claudio Bellini

Details of the leather and fabric volant.

I DREAM OF THE SOFTEST COMFORT

An extreme softness that you can sense at first glance, inspired by its shape. When you look at the headboard of the Piuma bed it's easy to imagine two pillows side by side. A refined profile distinguished by an original detail: the leather and fabric volant. The bed of your dreams, a place to keep dreaming.

Available in leather or fabric removable.

VELA BED

Designed by Claudio Bellini

*Detail of the large metal zipper and of
the space that can hold extra pillows, a
blanket or a bedspread.*

I DREAM OF VERSATILE DESIGN

A design, that is still comfortable when you awake, is the best dream of all. A few simple movements are all it takes to adjust the position of the headboard, which can assume different positions to ensure maximum comfort, even when sitting up in bed to read or work. The back of the headboard features two spaces that can hold extra pillows, a blanket or a bedspread. The metal base further highlights the bed's original design.

ONDA BED

Designed by Claudio Bellini

I DREAM OF BEAUTY THAT SOOTHES

The headboard of the bed - constructed as a single piece - can be transformed into a "wing" that enhances the base. The down padding ensures the utmost visual comfort and gives the product a glamorous look. Added functionality is afforded by the option of a storage base. Some dreams never stop making us happy.

Detail of the optional storage.

DOLCE VITA BED

Designed by Manzoni and Tapinassi

Detail of the "Chesterfield" style headboard.

I DREAM OF TIMELESS GLAMOUR

Vintage proportions highlight the craftsmanship of the Chesterfield headboard. Wherever you position it, its strong personality inhabits the space around it, while the quilted headboard underlines the value of craftsmanship. Finally the dream to have a wider space comes true.

DIAMANTE BED

Designed by Manzoni and Tapinassi

Detail of the original metal structure.

I DREAM OF EXQUISITE DETAILS

Simple and modern, it is distinguished by the details, from the stitching on the leather upholstery of the headboard to the original design of the feet, defining the bed's outline and "supporting" its structure with a light touch. Sometimes the simplest dreams are the best.

OASI BED

Designed by Manzoni and Tapinassi

I DREAM OF COMFORTABLE SHAPES

Generous, welcoming shapes form a kind of cocoon that calls to mind the notion of a nest, while maximum functionality is ensured by the option of a storage base. It invites dreams of taking refuge in a welcoming world. A safe haven to leave behind and return to.

Detail of the generous and welcoming shapes.

DREAMS DRESSED IN ELEGANCE

A passion for detail means not only paying attention to every aspect - however small - of what we design, but also breathing life into a particular taste. And nothing brings a bed alive like its bedlinens.

Which is why we have completed our Beds and Accessories Collection with three exclusive bedlinen ranges to use in a matching or contrasting way. As tactile as linen or as sensual as satin. From cold, rational tones to warmer, brighter hues. All embellished with stylish details.

SIRIO

Straightforward, contemporary bedlinen with the accent on substance and color harmony.

The fabric is exquisite 100% linen, while the edging and embroidery take advantage of tone on tone effects.

THE SIRIO LINE INCLUDES:

- UNDER-SHEET
 - OVER-SHEET WITH 2 MATCHING PILLOW CASES
 - DUVET COVER WITH 2 MATCHING PILLOW CASES
-

VEGA

300 thread count satin with a double frill: an elegant combination that artfully balances a sense of moderation with a willingness to dare.

THE VEGA LINE INCLUDES:

- UNDER-SHEET
 - OVER-SHEET WITH 2 MATCHING PILLOW CASES
 - DUVET COVER WITH 2 MATCHING PILLOW CASES
-

ARES

A graphic effect enhances this line of 300 thread count satin bedlinen. With audacious contrasting piping details.

THE ARES LINE INCLUDES:

- UNDER-SHEET
 - OVER-SHEET WITH 2 MATCHING PILLOW CASES
 - DUVET COVER WITH 2 MATCHING PILLOW CASES
-

I DREAM OF TOTAL COMFORT

We have always been committed to quality. And when it comes to sleep, quality is the most important thing of all. Which is why we decided to enter an exclusive partnership with TRECA, leading manufacturer of high-end mattresses. Since 1935, TRECA has controlled the entire production process, from the choice of raw materials - all strictly of the highest quality - to the smallest details of the finished mattresses, which are still hand-sewn today. Their expertise is unique, allowing them to combine natural materials and cutting-edge technology to ensure the ultimate in comfort, rest and wellbeing. We could not have made a better choice.

NATUZZI

TERRE DES SENS

The true Nature of Comfort

A collection of mattresses designed using entirely natural materials, taken from the land and the sea, to give your sleep a new dimension.

With Terre des Sens, TRECA has made an ecological choice to satisfy those who desire wellbeing in total harmony with nature.

Technical Specifications

AIR SPRINGS:

The mattress reacts to the individual pressure of each body, adapting to it to optimise comfort. The 160 x 200 x 25 cm version has 720 metal springs. The mattress ensures firm support while adapting perfectly to the body, eliminating any unpleasant impact.

COMPOSITION OF WINTER SIDE:

Lenpur 100 g/m²; Seacell 200 g/m²; padding 300 g/m².

COMPOSITION OF SUMMER SIDE:

padding 300 g/m²

Lenpur and Seacell ensure total hygiene, extreme softness and perfect ventilation, providing a sensation of pure freshness during sleep.

MAIN FEATURES:

- Antibacterial treatment.
- 4 aerators to ensure perfect ventilation and prevent the formation of mites.
- Side handles for easy positioning and maintenance.

DIMENSIONS:

160 x 200 x 25 cm

180 x 200 x 25 cm

MICRO CLIMATS

The right degree of innovation

A collection that expertly blends tradition and modernity. TRECA is the first brand of mattresses to use Outlast technology, which allows the fibres to adapt perfectly to any variation in temperature.

Never too hot, never too cold: the perfect climate for absolute rest.

Technical Specifications

MAIN FEATURES:

- Antibacterial treatment.
- Side handles for easy positioning and maintenance.

DIMENSIONS:

160 x 200 x 23 cm

180 x 200 x 23 cm

I DREAM OF CREATING A WORLD OF MY OWN

To transform the dream into a personal world, we have supplemented the Bed Collection with furniture items and cabinets. Six beautiful, versatile collections which reflect the idea of quality and customization at the heart of the Natuzzi Italia world. And which can also be used in the living area. Because the power of dreams lies precisely in having no limits.

MONDRIAN

Designed by Claudio Bellini

Stylistic precision and simple shapes are the hallmarks of this extremely versatile collection, that lives in harmony with any surroundings, in either living or sleeping areas.

Mondrian comprises various different elements (chest of drawers, bedside table, sideboard, TV stand) and a wide choice of finishes. The Collection takes its name from the Dutch painter Piet Mondrian, famous for his geometric style.

MUNARI

Designed by Manzoni and Tapinassi

A sinuous, three-dimensional design, characterized by the dynamic effect created by the drawers. Its strong personality is further underlined by the choice of materials: Canaletto walnut complemented by a top of precious Calacatta Gold marble, while smoked oak is complemented by a top in Dark Emperador marble. Also available as a chest of drawers and bedside table.

It takes its name from Bruno Munari, creator of an aesthetic of movement, comprising balance and dynamism.

EUCLIDE

Designed by Manzoni and Tapinassi

An original and distinctly design-oriented set of furniture with a strong personality.

The details are refined, from the drawer handles to the line of the foot that becomes an integral part of the structure and the fully lacquered interiors. Thanks to the lightness and modernity of its forms, it can complement and complete any room. Available as a chest of drawers and bedside table, it can be personalized with a wide range of finishes.

It owes its name to Euclid, who inspired the geometry of its forms.

FONTANA

Designed by Manzoni and Tapinassi

High and low chests of drawers, conceived to recreate the shapes and sizes of living room cabinets. A highly impressive collection finished in black sawn oak, which underlines its physicality. The simple, meticulous design perfectly complements beds of either modern or more traditional styles, as well as accessories from other collections. The key detail? The handle that runs across the entire height of the high chest, almost resembling an engraving. It takes its name from the famous Italian artist Fontana, known for his “engraving” on canvas

CARTESIO

Designed by Claudio Bellini

With its solid shapes and large spaces, this is a collection that immediately evokes a sense of practicality. Its proportions make it perfectly adaptable to both ultramodern and more traditional tastes. The original cabinet was designed to furnish the sleeping area with a highly functional component. The same component can also be adapted for use in the living area. And it is totally customizable, with a large number of finishes to choose from.

It owes its name and its rational, practical character to Descartes ('Cartesius' in Latin).
